***Minutes of the May 15, 2016 Meeting***

Meeting commenced at 11:00 AM.

In attendance were: Paul *Crescent*, Estrith *Dolphin*, , Jeanne Marie *Blue Mountain*, Eridana *Ambre*, Ariana *Trident*, Angharat *Coral*, Hrorek *Chevron*, Eirikr *Gold Phoenix*, Ardgal *Silver Mace*, Elizabeth *Beau Coeur*, and Manus *Battlement*.

Meeting schedule for 2016: **Jun 12th**, July 10th, Aug 14th, Sept 11, Oct 16th, Nov 13th, Dec 4th.

Approved submissions were forwarded to Laurel on the May 31st, 2016 Letter of Intent.

**From Crescent:**

- I (along with several other Caidan Heraldry) attended KWHSS in Salt Lake City. Next years will be in Knoxville, Tennessee, Shire of Nant Y Derwyddon. Many excellent classes were taught and taken.
- An alpha version of Electronic Submissions program built by Istvan *Non Scripta*. It is first being built for heralds, not submitters. If you are interested in alpha testing it, talk to me.
- Great Laurel Archiving Project is now complete; paper files are destroyed. The Laurel staff is now reorganizing and building a digital archive. The eventual goal is to have an online archive with auto-redaction of forms, tied to O and A. (This is a long way off yet.)
- Related to this, the College of Arms IT needs more resources and space on the SCA server. The Board is likely to ask the College to pick up the cost of this, so prices are likely to increase by \$1. Caid will not be increasing their rates to match, and will absorb the additional cost.
- Ursula Georges was announced as the new Palimpsest Herald, replacing Marie de Blois.
- June meeting – Queen’s Champion Equestrian has moved to June 5 in Calafia. Looking to reschedule our own meeting to June 12. There will be Brewers’ Guild meeting at the house on the same day, so we will do a joint Heraldry and Brewers potluck. Bring chairs.

**From Battlement:**

- Tomuki, Steward of GWW, asked for budget for Heraldry Activities. Ardgal and I provided exchequer budget of costs for past few years. Main cost is for printing and toner, as well as WiFi. Runs (including donations and available materials) about \$200, but starting from scratch would be about \$350.

**From Exchequer:**

- I am looking for a successor within the next six months. No deadline, just whenever, so if anyone is interested please let me know. Happy to be a deputy if needed.
- The books are in a fantastic state for taking over.

**Calafia, Barony of** - New Appeal of Laurel Return of Badge. *Azure, a sea serpent ondoyant-emergent sable fimbriated and overall a trident Or.*

In Aug of 1979 the Baronial device with the required Laurel wreath was registered and the former non laurel wreath version should have been retained as historic arms or badge. I am not sure if this is an administrative only submission or other.

The Baronial device is *Azure, a sea serpent ondoyant-emergent sable, fimbriated Or, overall a trident with a laurel wreath entwined in its tines Or.*

The Caid College of Heraldry supports the Barony's petition to restore their ancient arms, which appear to have been dropped in error during Heraldry.

**Appeal of badge approved and forwarded to Laurel.**

**Joshua al-Tabrizi** - New Name & New Device *Purple, a dragon sejant between in cross four mullets of eight points Or*

**Joshua** is a male Hebrew given name that appears in Jewish Names in the World of Medieval Islam, compiled by ehoshua ben Haim haYerushalmi and Juliana de Luna.

[http://heraldry.sca.org/names/Jewish/Cairo/cairo\\_men.html](http://heraldry.sca.org/names/Jewish/Cairo/cairo_men.html) Appearing in the lists of Jewish men's names are many classical Arabic names without any specifically Hebrew forms. These names take

several forms. There are a number of names that are specifically devotional names such as Hibat Alla-h or 'Abd al-'Aziz `servant of the Omnipotent'. These names are uniquely Arabic forms. However, they have a linguistic parallel in Jewish names like Joshua or Hillel which while not a direct cognate also derive from linguistic roots that relate to praising G-d. There are a large number of other classical Arabic names that appear among the Jews of Cairo including Ghulayb, Hasan, Huysayn, Muhammad and others. Some of these names come from the Koran or other traditional Arabic sources. In addition, some men appear to be known simply by a relationship. There are a number of men who are simply known as the father of their son Abu Sahl or Abu Ibrahim or by a patronymic such as Ibn Hiba or Ibn Walid. Some of these forms show a man as the father of a quality or trait and not a literal son such as Abu Tayyib father of the good. "

**al-** is an Arabic and Persian term for 'of'

**Tabrizi** is an Arabic and Persian locative form of the place name 'Tabriz'. Private correspondence from Ursula Georges (attached) indicates that Tabrizi is the Persian locative form of the town Tabriz. Ursula notes that Persian locatives don't distinguish between masculine and feminine bynames of this type.
