March Submissions

Amber Dragon Wyck – Kingdom Resub Device. *Per saltire Or and argent, a dragon couchant, a base engrailed purpure.*

The submitter's original device submission of *Per pale gules and argent, a chevron between a decrescent, an increscent, and a dragon couchant contourny, all counterchanged*, was returned by the Caid College of Heralds at their December 2016 meeting for conflict with *Per pale gules and argent, a chevron between two compass stars and a talbot's head erased counterchanged* (Cnut Ragnarsson, Oct 1991, Middle). There is a single DC for the change of type of secondary charges. This redesign clears that conflict.

Appearing in internal commentary as *Per saltire Or and argent, a dragon couchant purpure*, Master Bruce noted "Likely conflict with the device of Adriana inghean Labhrain mhic Fhionghuine (reg. April 2004 via Calontir), Quarterly argent and Or, a dragon dormant, wings inverted and addorsed, purpure. One DC for the field; nothing for couchant vs dormant. I strongly suspect nothing for the wings, in which case this is a conflict."

The submitter added the base inverted to clear this conflict prior to the decision meeting

Submitter desires a feminine name.
Language (Unspecified) most important.
Culture (Unspecified) most important.

Kathryn is found as a common Scots feminine name in late period with 2 examples listed here from 1558 & 1583
Kathryn Karnage female, married 1558, Scotland. Batch no. M11387-4
<https://familysearch.org/ark:/61903/1:1:XY3J-33P>

Kathryn Page female, christened 1583, Scotland. Batch no. C11426-2
<https://familysearch.org/ark:/61903/1:1:XYC3-4LW>

of Caledonia is a late period Scottsish place name meaning Scotland. By precedent registered on the Feb 2013 LoAR states:

Laurentia of Caledonia

This name was documented as a Latin name, but cannot be registered as such. The byname of Caledonia is not Latin, as it uses the English preposition of. To be derived from a Latin place name, the name would need to use the lingua Anglica allowance, which requires the use of the modern name for the place.

Metron Ariston was able to redocument the name as late period English and Scots. She dated Laurentia to England in 1558, 1563, and 1564 (all from the IGI Parish Record extracts). Caledonia as a grey period term for Scotland is found in the online Dictionary of the Older Scots Language (for example in the phrase "The countrey of Caledonia or Scotland (according to the old topographie).") Thus, this can be registered as submitted.

Valeran de Pico was granted an Augmentation by Their Majesties Patrick and Kara 2012-10-20 Caid

Early precedent that does not seem to have been overturned:

[*A mariner's astrolabe*] Lord Green Anchor has provided ample documentation for this form of astrolabe, dating it to c.1480. Visually, it differs from an astronomer's astrolabe in the large cutout areas (so the wind won't keep blowing it aside and make readings more difficult). Where the astronomer's astrolabe is visually a roundel with diapering, the mariner's astrolabe is visually a wheel with diapering (Vincent McThomas, October, 1992, pg. 5)

We believe that there is an SC between a roundel and a mariner's astrolabe, thus the augmentation is clear of the flag of Palau, *Azure, a bezant* (Sept 1995, Laurel).

Valeran do Pico - New Blazon Change. *Quarterly embattled gules and Or, in the first quarter a cross formy Or charged with a cross pointed gules and in the fourth quarter a mountain with four peaks couped Or*

OSCAR finds the name registered exactly as it appears in June of 1981, via Caid.

Currently in the O&A as *Quarterly embattled gules and Or, in the first quarter a cross formy Or charged with a cross pointed gules and in the fourth quarter a mountain with four peaks Or*, the blazon is missing the fact that the mountain is couped.

Request for reblazon approved and forwarded to Laurel
