**Dolphin:** Upcoming meetings Dates

January meetings ad hoc,

Next meetings will be scheduled for February dates TBD.

**From Palimpsest:**

**SENA & Administrative Handbook Updates**

[Administrative Handbook](#)

[SENA](#)

Standard form letters:

-Letters in Appendix D of Admin Handbook have been updated to neutral gender pronouns.

-Ancient Branch Names: A branch may now retain their ancient branch name in the same way they are able to retain their ancient arms. Updates to SENA to follow.

**From Wreath:** Rampant, Salient, & Statant Erect

Rampant: Body is upright between palewise and bendwise, from legs are apart.

Salient: front legs are apart or together, back legs are together.

Statant erect:

Segreant: interchangeable with rampant for winged creatures.

If the word in the blazon adequately describes the posture there will be no changes from Wreath.

**From Pelican:**

Names from Oral traditions: Names from oral traditions can be considered attested as long as the source using scholarly standard consider the name to have been known in period.

Capitalization of Old Norse Names: All previous precedents overturned. No capitalization required.

Castle: No evidence of Castle as a full name, however, may be registered as given name or surnames.

Upsilon: Greek Upsilon can be translated as V and U.

Armory: Vetu ploye must be considered as being equivalent to a lozenge for the purposes of conflict. However, if considering a new submission to be a charged lozenge results in unregistrable armory, it need not be considered under that blazon.

Finches: Period charges, considered regular shaped birds.

Birds: Redwing blackbird is newly added charge.

## **Caid Submissions**
