From Laurel: The [June 2024 LoAR](#) has been released. Of particular note:

Lillia Crampette provided extensive research on the combination of Scandinavian names with names in the English/Welsh and Gaelic regional naming groups. This research was presented in Palimpsest's March 24th Rules Letters. Based on this research, and the comments provided, SENA Appendix C is updated to allow names from the Scandinavian regional group with those from the English/Welsh and Gaelic regional groups through the end of period (1100-1600). This update will be available at <https://heraldry.sca.org/sena.html#AppendixC> within a few days.

We wish to thank both Lillia for sharing her research and those who provided additional information in commentary.

From Decrescent:

- The consultation table will be open on Friday and Saturday of GWW, with Sunday available by appointment. If you have questions about working the consultation table, Alienor Strongbow De Clare and Eridana Ambre Dragotta are in charge of consultation at GWW.
- If you would like to help out (or shadow & learn more consultation processes), sign up using iVolunteer. There are several spaces open for consultation heralds. It would be most appreciated if senior heralds also volunteer so that we have a balance of new and more experienced heralds doing consultation. If you have questions or concerns about using iVolunteer, please talk to me as Herald Liaison.

- Rycharde the Bowemon is organizing morning cry, as he has been doing for these past several years. We can always use more folks to do morning cry. Again, you can sign up for this using iVolunteer for most of the days of war.
- There will be other opportunities for heralds to help out throughout the war, including as processional heralds, or supporting the Valkyrie Rose Tourney on Sunday. Please keep an eye on the CoH FB group for updates.
- We are working to institute PayPal at the heraldic consultation table. Several heralds (thank you, Ariana verch Gwenllian, Alienor Strongbow De Clare & Jamal Damien Marcus) have been trained in PayPal procedures, and the College will be purchasing a PayPal machine. It is our hope that this will make consultation much easier for those at the table on Friday and Saturday of GWW.

From Dolphin: I would like to schedule a consultation class for new book heralds to help with GWW Herald's Point. I will follow up with potential volunteers to schedule. (Eridana has a cheat sheet for heralds to use at the Point.)

From Eridana: I have three folks in Calafia who are potential resources for First Nations who would like to work with the Society-level College of Arms who are working on First Nations naming resources. Those connections need to be made. There is a dearth of available records within period. There are some mission records from the Western regions that date back to the mid-1500's. There is a call out within the College to figure out how to address processes for this situation.

From Paul: Congratulations to the newest Companion of the Dolphin (Alienor Strongbow De Clare) who was honored at FotR. Congratulations to Hemmeter Pennefer who was made a Companion of the Lux Caidis for Heraldry at FotR also.

From Brig: Needs someone to print the Bellows stuff for Crown. Mary volunteered. Also, Brig, Mary, & Jamal plan to get together at some point this week to set up the precedence list for first round.

Alphonsus Balthasar von Hamer - New Badge. (*Fieldless*) *A war hammer sable, surmounted by a death head argent charged on the forehead with a fleur-de-lys gules.*

In internal commentary, commenters noted that despite the appearance of a charge on a charge on a charge, this design does not have a quaternary charge, which would be disallowed under SENA Appendix I.3. This is a primary war hammer with an overall death's head and a tertiary fleur.

Badge approved and forwarded

Beatrix Honeybourne - New Badge. *Sable, a bee Or between mullets of eight points argent.*

Originally submitted as *Sable, a bee Or between three mullets of eight points argent within an annulet Or*. The original design had three charge groups on the field in arrangement not found in the list of "Designs with Three or More Charge Groups On the Field that Have Been Documented" in SENA Appendix J. The submitter approved this design, which removes the annulet.

Bríg inghean Uatéir - Laurel Resub Badge. (*Fieldless*) *On a heart Or enflamed to chief gules the Roman numeral five sable.*

This submission is to be associated with *Free Company of the Heart and Flame*

The submitter's previous submission of (*Fieldless*) *Within and conjoined to a lantern frame, a heart Or enflamed to chief gules* was returned in the 01/24 LoAR noting:

This badge is returned for the use of a non-period depiction of a lantern. In the February 2016 return of the device of Domenico Taddio we ruled: "This form of lantern, although used in the past in SCA heraldry is a modern one. Barring documentation, it will not be registerable after the September 2016 meeting." In the November 2017 return of the device of Emerick Jones we upheld that precedent: "This device is returned for using a modern depiction of a lantern, a thin frame with transparent panes." Period lanterns in general, and period heraldic lanterns in specific, were typically cylindrical with a conical or domed top, rather than the truncated pyramidal shape found in this submission. There is also no evidence of them being used without panes, making them unsuitable to frame another charge, so we do not believe this issue can be corrected with a redraw.

By removing the lantern, this redesign addresses the reason for return.

Dun Or, Barony of - Laurel Resub Badge. (*Fieldless*) *On a tower per pale azure and Or a poppy affronty gules.*

This submission is to be associated with *Order of the Crimson Poppy*

The Barony's prior submission of the badge *Or, a poppy affronty gules within a bordure embattled azure* was returned on 06/2023 LoAR stating:

This badge is returned for conflict with the device of Runa von Rosenberg, *Or, a natural rose bendwise gules, slipped and leaved vert, within a bordure raguly gyronny sable and vert*. There is no difference granted between a poppy affronty and a rose, the presence or absence of a slip and leaves, nor between raguly and embattled. There is also not a DC for the orientation of the flower itself; though Runa's rose is in profile and the poppy in this submission is affronty, roses in period armory were drawn in both orientations interchangeably. This leaves only a single DC for the change in tincture of the bordure.

This redesign removes cited conflict.

Giacchino Morone Lococo di San Filippo - New Name.

Appearing in internal commentary *Giacchino Morone **Loccoco** de San Filippo*, we have corrected the name to match the submitted form and the submitter's desires.

Lo Coco is an occupational byname meaning "the cook" found in an undated entry in Caracausi (see attached). The submitter would prefer the spelling without the space but is willing to accept it with. We ask the assistance of the College in documenting either spelling.

Giovanni del Pace - New Name & New Device. *Per chevron sable and argent, a chevron between two lion heads cabossed Or and a fleur-de-lis sable.*

Sound (Pah-che) most important.

Giovanni is an Italian masculine given name dated 1390-1399 from Aryanhwyl merch Catmael's "Names from Arezzo, Italy, 1386-1528" - <https://www.ellipsis.cx/~liana/names/italian/arezzofull.html>

del Pace is an Italian patronymic byname dated 1427 from Juliana de Luna's "Frequency Listing of All Family Names that Occur Three Times or More from the Condado Section of the Florence Catasto of 1427" - <https://s-gabriel.org/names/juliana/condado/familyfreq.html>

Helvi goðlauss - New Name Change & New Device Change. *Per pale argent and sable, two ravens striking addorsed counterchanged.*

The submitter's prior name, *Decimus Helvius Faustus*, is to be retained as an alternate name.

The submitter's prior device, *Per pale gules and Or; a hyena's head couped sable*, is to be retained as a badge.

The following changes are allowed: Spelling of byname

Meaning (Byname meaning "Godless") most important.

Helvi is an Old Swedish name from Gotland found on Viking Answer Lady, s.n. Heilvé, Hæilvi. <https://www.vikinganswerlady.com/ONWomensNames.shtml#h>

goðlauss is an Old Norse descriptive byname/nickname found on pg. 22 of Geirr Bassi.

We believe Old Swedish and Old Norse to be compatible, and we ask the assistance of the College of Arms in demonstrating this.

Close to but clear of *Helvi av Gotland* (February 2016, An Tir).

In internal commentary, commenters noted a likely conflict with *Per pale argent and Sable, two ravens volant in chevron inverted counterchanged*. (Batu Mongo, A-Caid, January 2014). SENA Appendix L.1.c lists *striking* and *volant* in separate categories, so we believe there is a DC for the posture. However, the change in orientation does not contribute an additional DC. We are actively seeking permission to conflict from Batu.
